DRYWALL TOOLS

INNOVATIVE ENGINEERING

PRODUCT CATALOGUE

INTRODUCTION

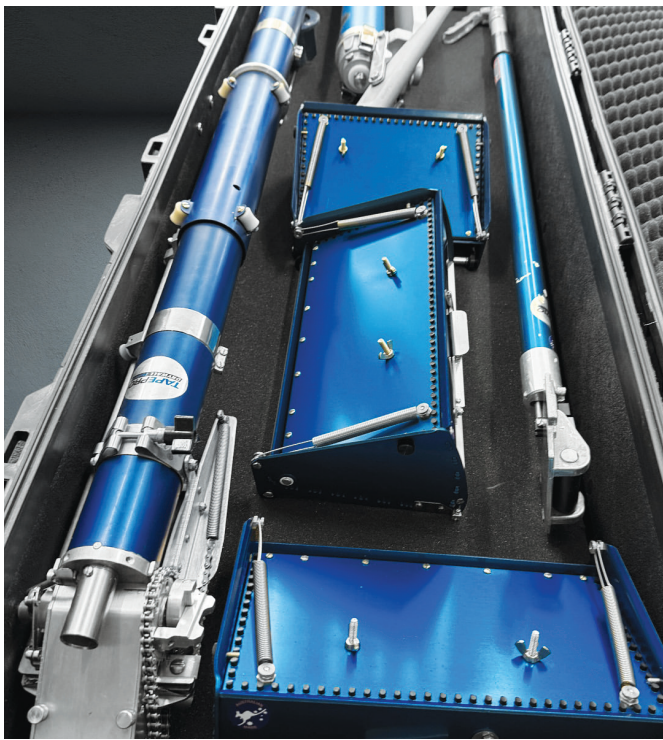

Tapepro Drywall Tools proudly offers contractors and distributors worldwide the finest automatic taping tools on the market for finishing joints in plasterboard construction. Tapepro tools are designed to produce a professional finish while reducing work fatigue and increasing productivity to work 3 to 4 times faster than setting by hand. The Tapepro line of tools incorporates design expertise that provides the contractor with greater durability and reliability. At Tapepro Drywall Tools we stand by our tools and proudly offer a 3 year warranty. Tapepro Drywall Tool Company is dedicated to developing and manufacturing the worlds' leading Automatic Drywall Tools.

“

Finest automatic taping tools on the market for finishing joints in plasterboard construction.

”

Through continuous Research and Development, stringent Quality Control and the largest after market technical support program available, Tapepro Drywall Tool Company is committed to providing contractors worldwide with tools to give them the “Professional Edge”. Tapepro offers a full range of training and technical advice and every tool can be serviced and repaired in Australia. All of our tools and equipment can be purchased through our distributors.

Tapepro Drywall Tools

AUTOMATIC TAPER

Tapepro combines precision engineering, superior design features and high quality materials to create the fastest and best Automatic Taper on the market.

Tapepro Drywall Tools introduced the first carbon fibre plastering tools with the SuperLite range of flat box handles in 2015, incorporating the technology in the Superlite Auto Taper in 2020.

AT-S	9315778003070	Auto Taper - Short	2.1L

The Automatic Taper has long been regarded as the pinnacle of taping machines, and the SuperLite Auto Taper expands the SuperLite range.

AUTOMATIC TAPER

- Quality, hard wearing components
- Easy to adjust backup roller tension
- Simple to use control tube with pull ring
- Removeable head for easy cleaning
- Fill using the Loading Pump (LP-EZ) and Goose Neck Nozzle (GS)

SUPERLITE TAPER

- Carbon fibre main tube with reinforced section for quick release head
- Light weight titanium side plates
- Carbon fibre control tube
- Billet aluminium control rings with integrated pull ring
- Adjustable control tube rollers
- Anodised cover plate

AUTO TAPER
LEARNING HUB!

MUD BOXES

The Tapepro Mud Boxes are the definition of tough mudders. They're constructed from robust materials like stainless steel and industrial plastics making them extremely hard wearing. The simple "mud bath" design makes the Mud Box® the fastest taping tool to learn and the easiest to use.

BOOSTER® AUTOMATIC BOXES

Tapepro Booster® Automatic Boxes are Flat Boxes - with a difference. The Booster Auto boxes have reverse springs which help force out the joint compound. This reduces the effort required and is particularly handy for out of position or difficult to reach areas. They're designed to reduce the effort in flat finishing particularly when finishing very high or low flat joints or vertical joints.

- The handle extends from 980-1600mm with four locking positions
- Ergonomic grip
- Twister Swivel Plate (TSP) is compatible and can be retrofitted to Tapepro's ProReach® Handle (FHX) and each of the fixed Handles (FFBH-****)
- Brake engages at any angle
- Anodised head assembly for premium wear resistance
- Patented "Twister" swivel head that you can adjust to suit the joint
- Weighs just 1.5kgs
- Compatible with all Tapepro Flat Boxes

FHX-T

FLAT BOX HANDLE BRAKELESS

Tapepro flat box handles have always featured a locking screw to increase friction or lock the head. As an economical alternative, the brakeless handle uses this feature as the only mechanism. There is no grip or cam to operate the brake, you just tighten the knob on the head to increase friction.

A tighter friction setting will allow you to sweep the flat box wheels off the wall when finishing joints (similar to a nail spotter brake), and maintain control of the box position when off the wall. Screw in extensions can be used to increase length (HE-600, HE-1200).

Code	Barcode	Size

FLAT BOX ACCESSORIES

Tapepro flat boxes can be fitted with a range of unique accessories. Find parts diagram on pg37.

FLAT BOX BEAD GUIDES

Transform your Tapepro Flat Box into a quick and easy way to finish out any style of outside corner: metal, plastic or paper face bead.

- Durable stainless steel guides
- Inner guide compresses against the wall
- Angular deflection of outer guide ensures no scraping on adjoining surface

FLAT BOX BUMPERS

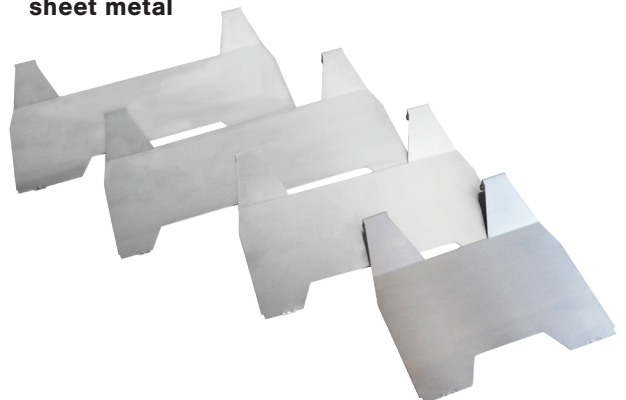

Affordable and easy to install, these bumpers protect your brass blade holder and side plates from damage.

- Protects the brass blade from scraping on surfaces and damage to side plates
- Fits to all Tapepro Flat Boxes
- Especially handy for boxing shadow beads or corners

REDUCER PLATE

The Tapepro Reducer Plates are designed to fit to Tapepro flat boxes to reduce the applied width of compound.

- Easy to fit and remove
- Fits to Tapepro Blue2 and T2 Flat Boxes.
- Made from durable stainless steel sheet metal

CORNER FINISHING

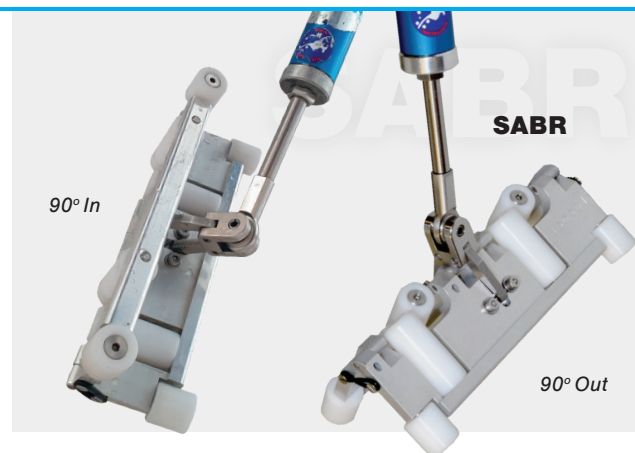

SELF ADJUSTING BEAD ROLLER

Perfect for use on all corner beads, particularly for off angles. With a wide range of motion this roller can be used on angles from inside 90° to outside 90° and automatically adjusts to the angle required. It can be fitted to our standard CRA015 1200mm handle, or the Pro-Reach extendable allowing easy reach to work on vaulted or raked ceilings. The handle pivot is close to the body which reduces any tendency to tip and the arms are positioned so as to provide even pressure to the rollers to ensure continual contact with the bead/surface.

Find parts diagram on pg48.

WATCH ON
YOUTUBE

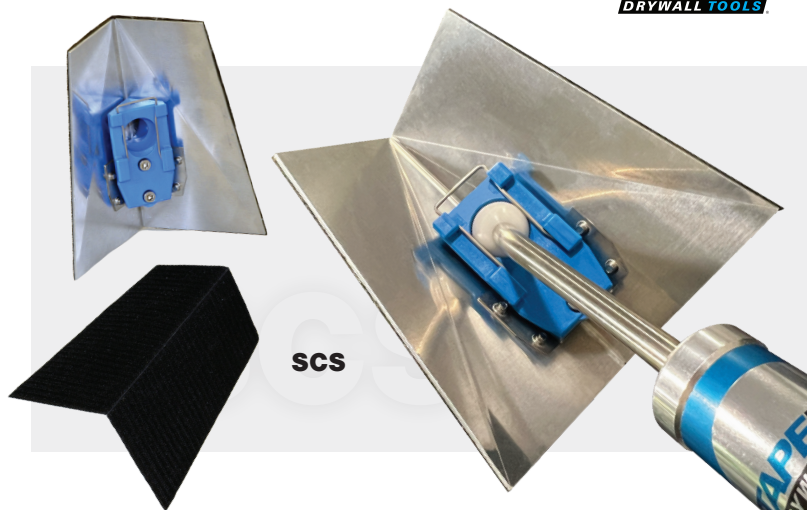

- Automatically adjusts to the angle required – no manual setting needed
- Very stable operation – no tendency to tip, perfect for use on extendable handles
- Large rollers spin slower meaning less compound flick
- Unique flexible bands provide spring action and increased control
- Made from CNC machined billet aluminium with acetal rollers for performance and durability
- Works well with all mud-on beads: Trim-tex, No-Coat, Strait-flex, paper faced metal

Code	Barcode	Size
SABR	9315778003827	Inside 90° - Outside 90°

STEALTH SANDER

The Stealth Sander is an internal 90° sanding tool that uses geometry to solve some typical sanding problems. One end forms a 95° included angle, while the other end forms 85°. The 95° end helps feather the outer edge of the applied plaster finish coat; the 85° end helps sand the apex. The transition from 85° to 95° is at a diagonal angle which effectively forms 90°. It is best used with Wallpro Premium Cushioned Stealth Pads 180g – 6 pk (PCP-180-6) that fit perfectly and provide an excellent abrasive surface. Alternatively you can use Stealth Super Pads (5 pack SCP-220-5) – be sure to float the narrow end to hit the apex.

SCS

STEALTH SANDER

- Aluminium alloy body
- Abrasive pad attachment using hook tape (hook and loop)
- Acetal ball socket block for snap fit handle attachment

INSIDE CORNER ROLLER

Bed in joint tape and corner beads with ease using Tapepro's famous Corner Roller. The inside Corner Roller (CR-H / CR-XH) is designed for use after taping - the self aligning rollers bed-in paper tape in internal 90° corners forcing excess compound out. Use the Inside Corner Roller on joint tapes, paper faced bead and corner tape.

Find parts diagram on pg40.

CR-H

- Hard wearing die cast aluminium body
- Durable solid stainless steel rollers with acetal bushes for smooth rolling
- Swivel attachment adjusts to any angle
- Pivoting rollers embed joint tape (paper tape / FibaFuse®), paper faced beads, and corner tape (No-Coat®, LevelLine® and Strait-Flex)
- Handle compatible with Outside Corner Roller Head (OCR)
- Available with a fixed 1200mm handle (CR-H) or an Extendable 960-1600mm Handle (CR-XH)

GLIDER GLAZERS

The Glider Series Glazers feature new geometry, sizing and WHEELS! Using the same wheels as our Nail Spotters, these glazers GLIDE along internal 90 DEG corners providing an even coverage while feathering the edges. The Glider Glazers have a stiffer body better suited to thicker compound mixes. Similar to straight glazers, the Gliders are designed to be used with a Corner Finisher Handle (CFH-1200, CF-XH) as a two step process: apply compound with Compound Tube or Corner Box using the AH-38 Applicator Head, then glaze with the Glider Glazer.

COMPOUND APPLICATOR TUBE

The Compound Applicator Tube is our most versatile tool. When fitted with one of Tapepro's specialised mud heads the Compound Tube can complete a range of tasks including application of compound (for taping or installation of mud on trims), finishing internal corners and application of cornice cement.

Find parts diagram on pg30.

- Compound Applicator Tube available in two sizes 600mm (CA-T24) and 900mm (CA-T)
- Hard wearing, powder coated main tube and industrial plastic head with stainless steel ball
- Compound Applicator Tubes (CA-T, CA-T24) come standard with the CAN high flow nozzle, the Flat Applicator Compound Tube (FA-CT) comes standard with the FAN Flat Applicator Nozzle
- Easy to operate
- Can draw up compound straight from the bucket, alternatively it can be filled with the Loading Pump (LP-EZ) and Goose Neck (GS)

Code	Barcode	Size	Capacity

**with the application of the correct Tapepro Compound Applicator Attachment*

COMPOUND APPLICATOR ATTACHMENTS

MANTA RAY ADJUSTABLE INTERNAL APPLICATOR

- It features spring loaded wings that provide a range of movement from 160 to 100 deg.
- It does not apply compound to the apex of the joint so is perfect for expansion type corner beads which incorporate a flexible centre.

WATCH ON
YOUTUBE

INTERNAL APPLICATOR HEAD

- Apply joint compound to 90° internal corners, including the apex

CORNER GLAZER 75mm

- Apply second coat to internals while feathering the edges
- One step process

CORNER FINISHER 75mm PLASTIC

- Apply second coat to internals while perfectly feathering the edges - fast!

FLAT APPLICATOR NOZZLE

- Apply compound to flat recessed joints and fill Flat Boxes

OUTSIDE APPLICATOR HEAD

- Apply joint compound to external corners, including the apex

CORNICE HEADS

- Apply cornice cement for quick and easy cornice installation

FLAT TEAR AWAY BEAD APPLICATOR

- For a quick and easy way to install bead creating less mess.
- Can also be used on any internal joint of any angle using a double pass – one in each direction.

CORNER BOX

The Tapepro Corner Box delivers joint compound to internal corners when paired with a Corner Glazer (CG-75) or Corner Finisher (CFP-75, CF-65, CF-75, CF-90).

Find parts diagram on pg38.

- Super tough peened anodised aluminium body
- High flow nozzle
- Long reach cone for tight corners
- Able to attach Corner Finisher
- Available with a fixed 1200mm Handle (CA-H) or an Extendable 960-1600mm Handle (CA-XH)
- Compatible with Tapepro Corner Glazer (CG-75) and Corner Finishers (CFP-75, CF-65, CF-75, CF-90)

CORNER FINISHERS

Tapepro's premium range for internal finishing. Each of the Corner Finishers can be snapped onto a Corner Finisher Handle (CFH-1200/ CF-XH) to glaze off excess compound after installing tape. They're also expert topping tools - simultaneously applying the perfect top coat to internal corners and feathering the edges.

Find parts diagram on pg41.

CORNER FINISHERS

- Precision machined billet aluminium head provides durability and performance
- Fabricated stainless steel frames provide a superior fit to the head ensuring smooth operation
- Carbide blades and skids provide maximum wear resistance
- Additional spring and adjuster clip achieve the perfect spring tension
- Unique ball socket retainer provides spring clip feel with locking lever security
- Removable top piece for thorough cleaning and easier blade adjustment

SHORT HANDLE ADAPTOR

The Short Handle Adaptor can be used as a short handle in conjunction with a variety of tools including glazers, nail spotters, rollers and Stealth Sander. It can also be used as an adaptor to fit to other handles including FFBH flat box handles, HE-600 and 1200mm handle extensions, CRA015 corner roller handles and SA030 nail spotter handles. It is made from durable and robust components and made to last. Perfect for making the most of your existing handle range, or for close work allowing you to use auto tools in confined spaces.

- Works seamlessly with various tools, including glazers, nail spotters, rollers, and the Stealth Sander
- Easily fits onto other handle types, such as fixed flat box handles, handle extensions, corner finisher handles, and more
- Maximizes the functionality of your existing handle collection
- Perfect for close work and enables the use of auto tools in tight or confined spaces
- Light weight: Weighs just 0.5kg
- Australian designed & made

TAPEPRO CASES

TC-450

TOOL CASE 450MM

Protect and transport your tools in a robust injection moulded tool case. The TC-450 case is perfect for flat boxes and accessories.

- Protect your tools
- Shockproof & water resistant
- Lockable lid
- Comes with Tapepro Boxer Kits

TOOL CASE 1310MM

The TC-1310 is a mid-sized case perfect for internal tools.

- Watertight, airtight and dust proof
- Made from GFRP
- Six latches
- Easy-glide wheels and swivel handles
- Int Dim: 1308mm x 321mm x 133mm
- Ext Dim: 1387mm x 394mm x 152mm
- 8.4kg

TC-1310

TC-1420

TOOL CASE 1420MM

The TC-1420 is our largest tool case, capable of fitting a variety of tools including automatic tapers. Made from light weight but durable GRPP, it features stainless steel fittings and two wheels for easy manoeuvrability.

- Waterproof, dustproof, corrosion resistant (IP67)
- Six latches, two lock points
- Comfortable handle
- Customisable foam lining
- Int Dim: 1380mm x 390mm x 220mm
- Ext Dim: 1470mm x 470mm x 270mm
- 15.5kg

SLAYER CORNER KIT

Tapepro's Slayer Corner Kit includes all the tools required to tape and set internal corners. The kit will significantly speed up the internals process when compared to hand taping and setting and includes the Tapepro Inside Corner Roller to ensure even tape bedding. The Slayer Kit allows the user to run base compound along the internal joint with the compound tube and applicator head. The roller will bed the joint tape squarely into the corner and spread the compound evenly. The 55mm glazing head then feathers the compound to a flat finish. Once base compound is dry the compound application process is repeated for subsequent topping coats with the 75mm glazing head.

AVAILABLE IN 200MM, 250MM AND 300MM

FLAT BOX HANDLE MAINTENANCE KIT - FHK01

Replaces the major wear components - hinge assembly, locking cam and retainer. Use this kit when the brake action is ineffective due to wear in these components, and the hinge is bottoming out.

Contents:	
FHA002	Hinge Assembly x 1
FH005N	Locking Cam x 1
FH007	Retainer x 1

Code	Barcode
FHK01	9315778995894

CORNER ROLLER MAINTENANCE KIT - CRK01

Replaces the rollers and bushes. Use this kit when the corner rollers are too loose and the roller ends may be catching on the wall.

Contents:	
CR002	Bushings x 4
CR003	Roller S/S x 4
CR004	1/4" - 20 x 1 - 1/4" HexHd x 4

Code	Barcode
CRK01	9315778995863

AUTO TAPER MAINTENANCE KIT - ATK01

Replaces commonly used and easily replaced wear parts on auto tapers.

Code	Barcode
ATK01	9315778002950

Contents:	
AT218	Creaser Cable x 1
AT248	Puller Cable x 1
AT243-1	Cup Wiper Modified x 1
ATK141	O Ring (BS225) x 1
B051	Bearing Liner x 1
AT031	Pyramid Cutter Blade x 1
AT074	Needle x 1
AT005	Creaser Return Spring x 1

CORNER BOX MAINTENANCE KIT - CBK01

Replaces the pressure plate axle and nyliners. Use this kit when the box is leaking due to wear between these components.

Contents:	
F008	Nyliner x 2
CB014	Axle x 1
AT062	4-40 x 5/16" BH Screw x 3

Code	Barcode
CBK01	9315778998185

CORNER BOX SERVICE KIT - CBK02

Replaces the seals. Use this kit when the box is leaking due to the seals being worn or deteriorated.
